Sounds good, I'll pitch 11:00 tomorrow or 8:30 on Wednesday and we'll get back to you on which time works best.

That sounds good to me. We have our tire crumb general tomorrow at 8, I can put something on all our calendars for tomorrow at 2 if that works for you.

Ex. 5 Deliberative Process (DP)	Should we wait until tomorrow, and let you all talk first? Then we can regroup and figure out next steps for this week.

Let me know.

Hi Jackie,

I agree, I'm not exactly sure how responsive those facilities we have not been in contact with previously will go, and that we should definitely take advantage of our current network first.

Ksenija and Nicole are both out today but will be returning tomorrow. I'd be happy to talk about this later today or tomorrow if you'd like. I am available most of this afternoon.

Yes, I would speak to them while you are there. No word yet on whether we can count the California samples. I would proceed with the idea that we will need 9.

Should we talk about this? I think we should try to start this week, if possible.

Hi Jackie,

We have not called any of the facilities as of yet; Ex. 3 [CERCLA 104(e)(7)(42 USC 9604(e)(7))]/Ex. 5 DP

Thanks, Chris. Are you planning on calling any of these, or have you called any already? Are you planning on asking Genan when you visit?

Hi Jackie,

Please find attached our list of potential crumb rubber manufacturing sites to sample.

There are some gaps in the table that would require initial calls to fill out that information (such as type of crumb rubber produced, types of tires used, and if the material is used primarily for infill), and would require that ORD give the facilities a call to get that.

Let us know if you have any quesitons.

Have a great weekend!

Chris
